

Visa Information for participants from outside the Schengen Area

Participants travelling to Sweden from countries outside the Schengen area may require a visa to enter Sweden. Visa requirements vary depending on nationality, and participants are responsible for checking the applicable rules with the Swedish Embassy or the official visa application provider in their country.

ChessParty does not sponsor travel or visa applications. All participants are responsible for arranging and covering their own travel, accommodation, and visa requirements.

If documentation is required for a visa application, ChessParty can provide a simple confirmation letter stating that the participant is registered to attend the event. Please note that such letters are issued **only after a confirmed ticket purchase or tournament registration**.

The confirmation letter will only confirm participation in the event and does not imply sponsorship, financial support, or responsibility from the organizers. All visa decisions are made solely by the relevant authorities.

Due to the high number of inquiries we receive, ChessParty is unfortunately unable to provide individual visa guidance beyond confirming participation in the event.
